For use with
Part Number: CQ1509-9001, CQ1509-9002

Model: 1509-9001, 1509-9002

Items in the Kit:

| DESCRIPTION	2INSPIRE POE		QTY
	Black (1509-9001)	White (1509-9002)	
WALL MOUNT SHORT	1509-0036	1509-0037	1
WALL MOUNT CANOPY COVER	1509-0031	1509-0032	1
WALL MOUNT BRKT	1509-0026		1
SCREW M3x10 FH PLPS	430-1110-0	430-1110-1	3
SCREW M5x12 FH PLPS	450-1112-0	430-1112-1	1
SCREW PH PLPS #8-32 1-1/4" MS Zn	3081-2201		2

## 1.   Tools Required

➢ Phillips-head screw driver

➢ Before installation, thread the cable from the outlet through the components in this order: **Wall Mount Bracket**, **Wall Mount**, **Wall Mount Canopy Cover**, and then into the Main Fixture. This will simplify the installation process.

2.   Installation Procedure

1.   Attach the **Wall Mount Bracket** into your standard Outlet, and secure with **#8-32 1-1/4" PH PLPS** Screws on either side as appropriate.
2. Insert the **Wall Mount** into the **Wall Mount Canopy Cover**, slide it into the grooves to clip it into place. Secure the **M3x10 FH PLPS** screw in place.

Note: For reverse (upward) mounting, insert the ethernet cable first into the wall mount bracket before step 2.

3. Position the Wall Mount so that the **Wall Mount Canopy Cover** sits on top of the Main Fixture. Secure it using the **M5x12 FH PLPS** screw (use the innermost slot for Model 100, the middle slot for Model 200, and the outermost slot for Model 300), then fasten it with two **M3x10 FH PLPS** screws on each side.
4. Attach the assembled **Wall Mount Bracket**, **Wall Mount**, and **Wall Mount Canopy Cover** to the Main Fixture by fitting it into the Wall Mount Bracket. Secure everything by clipping the end of the Wall Mount into the brackets. Finally, fasten all components with an **M3x10 FH PLPS** screw.

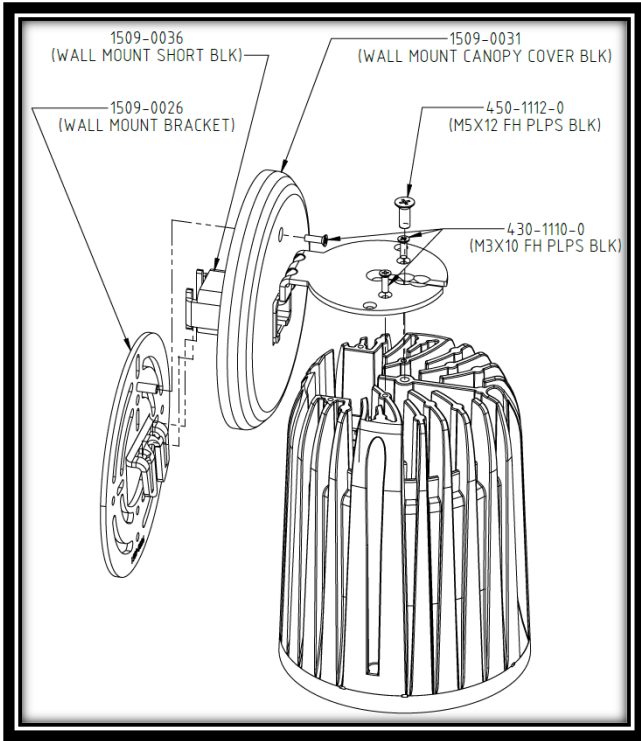

The **Wall Mount** kit can be mounted with the Main Fixture onto the outlet inversed (upwards), as illustrated below.
Note: Please refer to step 2 of Installation Procedure above for cable installation.
